

About Mysil Group Limited

Mysil Group Limited is a great Scottish cryptocurrency investment company launched in **2019** led by a wonderful team to provide Financial Freedom to the world. Mysil Group Limited makes use of Bitcoin mining machines with the latest software which utilizes a remote data center with shared processing power. This process enables the company to mine Bitcoins and other cryptocurrencies without managing the hardware. In essence, the rigs are housed and maintained in a facility owned by the mining company. All a customer needs to do is simply register and invest in a package. Nowadays cloud mining is becoming more and more popular and here in Mysilgroup.com, we are doing our best to deliver the best, quickest and fastest service possible in the market.

Mysil Group Mining Office Is
Located at **Penile Rd, Glasgow
G52 4TG, Scotland.**

Mysil Group Limited is legally
registered and certified by UK-
Government Through "Companies
House"

Aims And Objectives

Mysil Group Limited main aims and objectives are to deliver long-term capital growth and financial freedom to our investors worldwide.

Mysil Group Limited aims to provide a stable investment contract signed and regulated by the Scottish Government which is renewed every **100 years**. The domain server is renewed every **10 years** while the investment contract is renewable after 100 years.

Mysil Group Limited helps to maintain investors' capital and interest we can provide a guaranteed income for each started investment plan.

We also allow our members to participate in the referral program, thanks to which can earn you a bonus and interest even without having an active investment.

How Mysil Group Generates Income

Mysil Group Limited.com generates income through “Crypto Cloud Mining”. Cloud mining is the process of generating cryptocurrencies by using cloud mining machines and software.

With this, Mysil Group Limited uses investors' deposits to generate more interest and income through steady mining using the latest versions of premium machines such as “Bit main Ant miner S9i PRO” along with other quality mining machines at “Mysil -Group -Farm” located at “Penile Rd, Glasgow G52 4TG, Scotland”.

The mining farm currently has a capacity of **1000MW**. It is set to expand to **5000MW** in the future, which will make it the world's largest Crypto mining farm in the world.
